CSE362

Software Development and Professional Practice

- Goal 1: Learn about a range of topics integral to the design, implementation, and testing of a medium-scale software system.
- Goal 2: Gain the practical experience of implementing such a project as a member of a programmer team.
- Goal 3: Get exposed to material on the social context of computing as well as professionalism and ethical responsibilities in software development.

Meeting times

Day	Time	Room	Type
Monday	1440-1630	Girouard 425	Lecture
Wednesday	1000-1050	Girouard 362	Lecture
Friday	1340-1530	Sawyer 5206	Laboratory

Goal 1

Day	Time	Room	Type
Monday	1440-1630	Girouard 425	Lecture

- We will cover material in class pertaining to:
  - The Software Development Life Cycle (SDLC)
  - The Software Development Models
  - The Management of Software Projects.

- Lectures + Practical exercises

Goal 2

Day	Time	Room	Type
Friday	1340-1530	Sawyer 5206	Laboratory

- The 2-hour lab period will be used to work towards a group project.
- More details about the group project will be provided later.

Goal 3

Day	Time	Room	Type
Wednesday	1000-1050	Girouard 362	Lecture

- This period will be used for the individual presentations.
- The individual presentations should cover a current ethical issue related to SD, illustrated using one or more case studies.
- The presentation should include arguments showing the opinion of the presenter:
  - Not just a story of what happened!

Marking Scheme

Assessment Type	Weight	Quantity/Details
Individual presentations	10%	1
Engagement during presentation discussions	5%	
Project	60%	Details are provided on the website
Midterm exam	15%	1
