AI ART

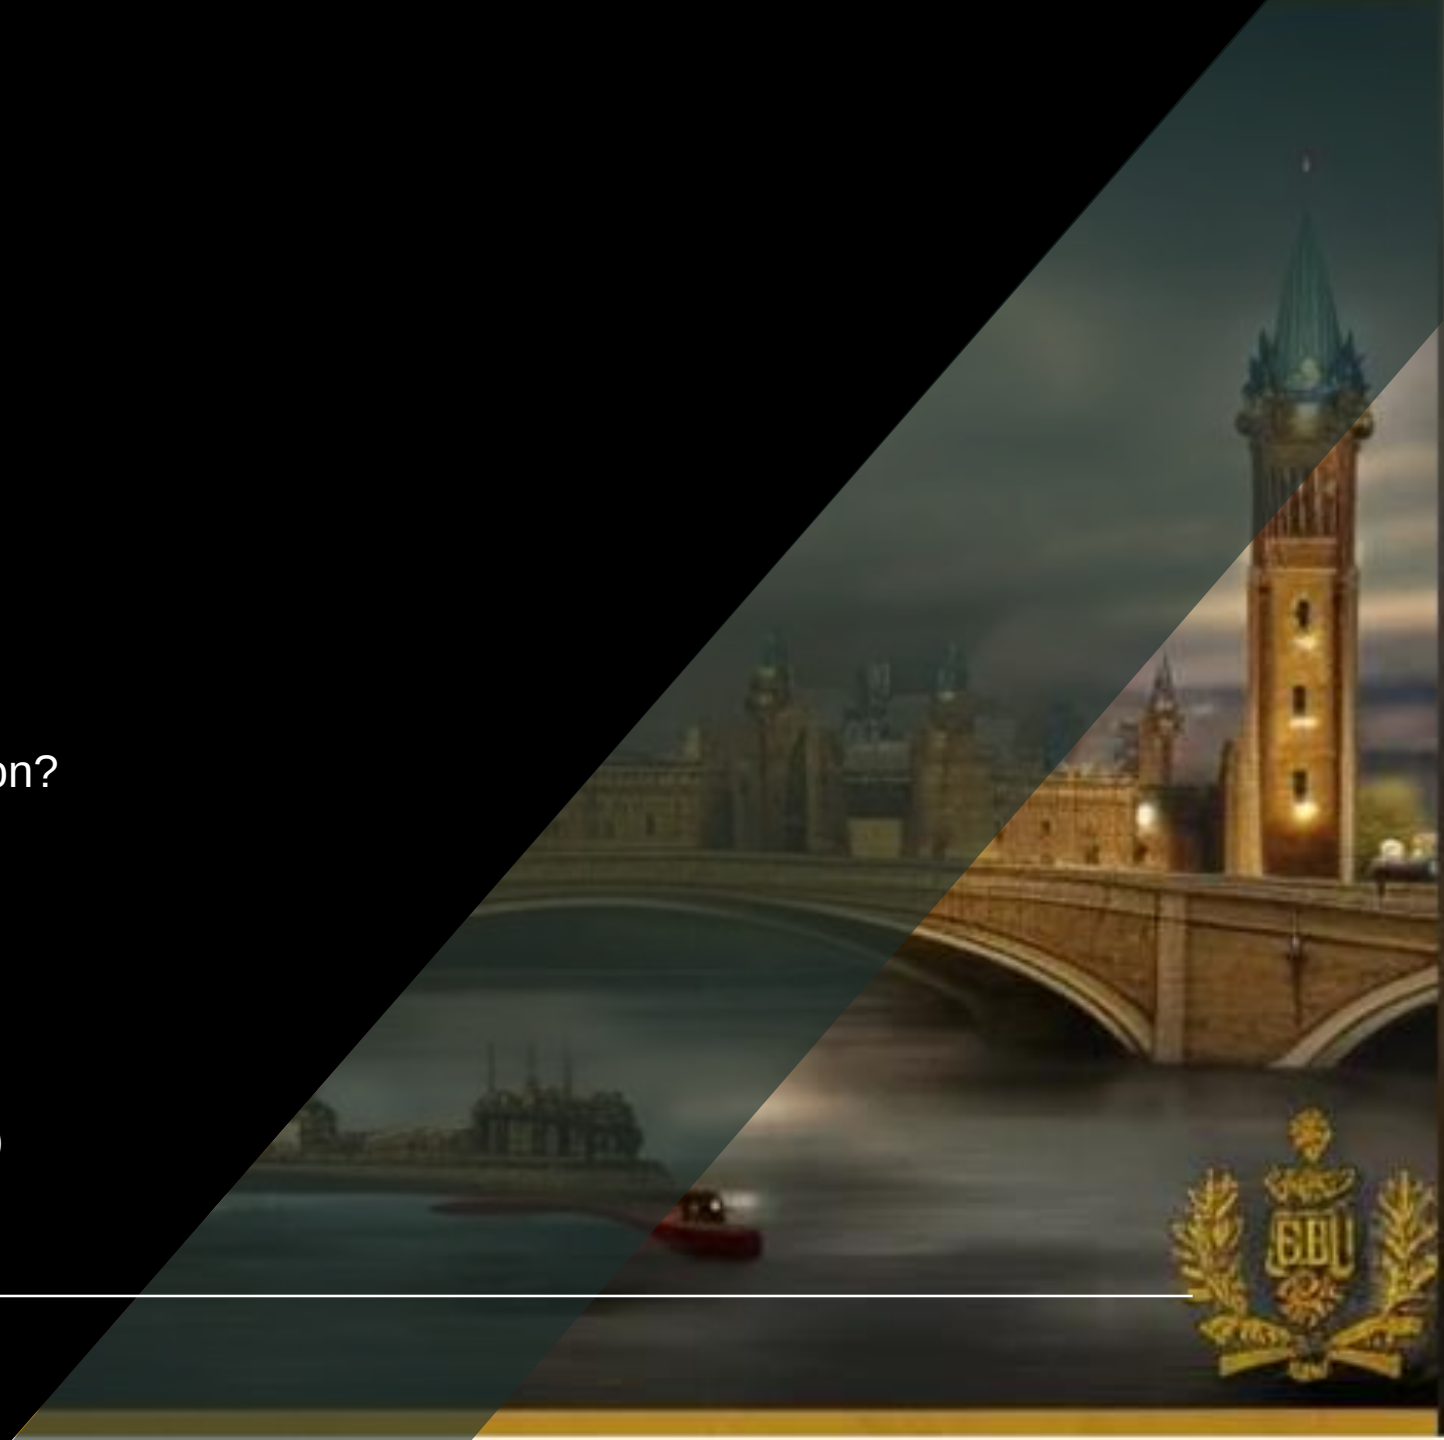
By: OCdt. Charlie Murphy

Is AI Art Stealing?

- Art to the masses vs permission?
- AI art is unique
- AI is trained on data
- Does AI steal an artist's style and creation?

- Art made with Stable Diffusion

(key words: Royal Military College of Canada)



AI Portraits

- Lensa is a popular app at the moment
- Uploaded images used to create new art
- Issues?

  Body Dysmorphia

  Augmenting skin tone

  Changing shape of the face

  - Art made with Stable Diffusion (key words: Canadian Soldier)

AI Art in Games

- High on Life used AI art to populate the posters in the game
- Does using AI allow the creators to be lazy or does it allow them to immerse players in another world?

More AI Art

End Product

- Art reflects and influences culture
- Culture is a part of identity
- What does it mean for the world if art including is no longer created by people?
- This technique and the technology can be used to create:

  Art

  Movies

  Music

  Literature

Who is accountable for the potentially negative art created in the future?
