CSE362

Software Development and Professional Practice

- Goal 1: Learn about a range of topics integral to the design, implementation, and testing of a medium-scale software system.
- Goal 2: Gain the practical experience of implementing such a project as a member of a programmer team.
- Goal 3: Get exposed to material on the social context of computing as well as professionalism and ethical responsibilities in software development.

Meeting times

Day	Time	Room	Type
Monday	1240-1430	Sawyer 5206	Laboratory
Thursday	1440-1630	Girouard 427	Lecture
Friday	1240-1330	Massey Library 306	Lecture

Goal 1

Day	Time	Room	Type
Thursday	1440-1630	Girouard 427	Lecture

- We will cover material in class pertaining to:
  - The Software Development Life Cycle (SDLC)
  - The Software Development Models
  - The Management of Software Projects.

- Lectures + Practical exercises

Goal 2

Day	Time	Room	Type
Monday	1240-1430	Sawyer 5206	Laboratory

- The 2-hour lab period will be used to work towards a group project.
- More details about the group project will be provided later.

Goal 3

Day	Time	Room	Type
Friday	1240-1330	Massey Library 306	Lecture

- This period will be used for the individual presentations.
- The individual presentations should cover a current ethical issue related to SD, illustrated using one or more case studies.
- The presentation should include arguments showing the opinion of the presenter:
  - Not just a story of what happened!

Marking Scheme

Assessment Type	Weight	Quantity/Details
Individual presentations	20%	2 (10% each)
Summary of student presentations	10%	5
Project	50%	30% - Project Documentation + use of CASE tools 15% - Implementation, 5% - Peer Evaluation
Quiz	10%	End of Week 10 (tentative)
